Welcome to Working Class Acupuncture!

We are delighted that you have decided to try acupuncture with us. Here are some things you should know:

About acupuncture

Acupuncture is very old, and nobody really knows why it works. There are a lot of different theories, but they are all just theories. We believe people should be able to try it and decide for themselves if they want to use it to improve their health. In most cases, people need a series of treatments in order to get good results. Your acupuncturist will suggest a treatment plan: how often you should come in and when you might expect to see results.

If you have other questions about acupuncture, please check out the free ebook/audio version, “Why Did You Put That Needle There?” by our friend and fellow acupuncturist Andy Wegman at
http://www.manchesteracupuncturestudio.org/more-answers/152

About the community setting

Community acupuncture is a way of delivering acupuncture to make it affordable to more people. When acupuncture is too expensive, people often don’t get enough treatments to get good results. Our goal is to make it possible for you to get as much acupuncture as you want to get.

With community acupuncture, instead of treating people in separate, individual cubicles, we treat everybody in a shared space, in recliners. You do not need to disrobe. Once you are comfortable in a recliner you like, we will generally ask you to take off your shoes and socks, roll your pants up to your knees and your sleeves up to your elbows. Most conversations happen at the whisper level because there will most likely be at least one person who is asleep in the treatment room at any given time. After your acupuncturist puts the needles in, your job is to relax and let them work. You can stay as long as you like; most people stay between 40 minutes and an hour. When you are ready to go, just open your eyes and give us a meaningful look when we walk through the treatment room (this happens about every 10 minutes). We’ll come over and take your needles out.

We have ambient music and white noise machines in the treatment room; you are welcome to bring personal listening devices if you prefer your own music or guided meditation. People do snore sometimes, so if snoring bothers you, you should consider bringing a listening device or earplugs. You are also welcome to bring your own neck pillows or blankets if you prefer them to ours. We won’t be offended.
About our business

WCA is a social business (For more information about social business, check out Creating a World without Poverty: Social Business and the Future of Capitalism by Muhamad Yunus). This means WCA is designed to produce social dividends rather than profits. It means WCA only breaks even financially, while providing as much affordable acupuncture as possible and creating as many living wage jobs for acupuncturists as we can. We do not receive any grants or government funding; we depend entirely on fees for service. All of our acupuncturists are employees, not self-employed independent contractors (You don’t need to tip us). If you enjoy your experience, please tell your friends because word of mouth referrals are what keep us open.

The purpose of the sliding scale ($20-$40 per visit and a $10 new patient paperwork fee) is to make sure you can get enough acupuncture to get good results. Please don’t try to pay us too much and then not come in often enough. We would rather you come in more often and pay less – really and truly. We want you to get good results and then tell everybody you know acupuncture works! If you are having any financial difficulties with your treatment plan, please talk with your acupuncturist.

About the community acupuncture movement

We redesigned the business model for acupuncture so more people could afford it. Many other clinics around North America have followed our lead, and together we are part of a cooperative, the People’s Organization of Community Acupuncture (POCA – get it?). To find other POCA member clinics in other cities, visit www.pocacoop.com and click on the "Clinics" tab.

## Health History

What are your primary reasons for coming in for treatment?
1. ____________________________
2. ____________________________
3. ____________________________

How is your sleep? ____________________________

How is your digestion? ____________________________

List medications or food supplements you are taking.

List significant and/or chronic illnesses, accidents or surgeries.

Check symptoms you have or have had in the last year:

- Depression
- Difficulty in focusing
- Dizziness
- Easily startled
- Excessive worry and/or fear
- Excessive anger
- Fatigue/tiredness
- Loss of sleep/poor sleep
- Nervousness/irritability
- Overwhelmed by life

Check any additional areas of concern you have other than your primary reasons for coming:

- Muscle/Joint/Bone
- Eyes/Ears/Nose/Throat/Respiratory
- Skin related issues
- Genito/Urinary
- Cardiovascular
- Gastrointestinal
- Menstrual related issues
- Sexual/Reproductive

Are you pregnant? ____________________________

## Signature

The information on this form is correct to the best of my knowledge.

Signature ____________________________ Date ____________________________
I consent to receive acupuncture treatment and other procedures within the scope of acupuncture practice (for myself or for the patient named below, for whom I am legally responsible) from acupuncturists at Working Class Acupuncture (WCA) or the student interns and clinical supervisors of the POCA Tech Student Clinic. All treatments by student interns are given under direct supervision of clinical supervisors. This treatment may include, but is not limited to: acupuncture, Chinese herbal medicine, and moxibustion.

I understand that acupuncture involves the insertion of fine needles at specific points on the body. Acupuncture is generally considered to be a very safe method of treatment, but I understand that side effects can occur. Possible side effects of acupuncture include bruising, bleeding, numbness or tingling near the needling sites that may last a few days, dizziness, and fainting. Unusual risks of acupuncture include infection, spontaneous miscarriage, seizures, nerve damage, and organ puncture, including lung puncture (pneumothorax). We use sterile, single-use acupuncture needles and maintain a clean and safe environment.

If an acupuncturist recommends it, I may choose to use Chinese patent herbal medicine. Chinese patent herbal medicine is generally considered to be very safe, but I understand that herbs should be taken as directed by the acupuncturist. Some may be toxic in large doses or inappropriate during certain conditions such as pregnancy. I will immediately notify an acupuncturist if I experience any unpleasant side effects while taking herbs. Possible side effects of Chinese patent herbal medicine include nausea, gas, stomachache, vomiting, diarrhea, rashes, hives, and tingling of the tongue.

I understand that moxibustion involves burning small quantities of the herb mugwort on or above the skin. Possible side effects of moxibustion include burning and scarring. Most treatments do not include moxibustion.

I understand that WCA and the POCA Tech Student Clinic provide acupuncture in a community setting. The purpose of this setting is to allow as many people as possible to access treatment and to decide for themselves how they wish to use acupuncture to manage their health. Common side effects of acupuncture treatment in a community room include deep relaxation, falling asleep, and snoring. I understand that if I need to be woken up at a certain time, I will let reception staff and my acupuncturist or my student intern and clinical supervisor know. I understand that I might be too relaxed to drive immediately after treatment. If other people's snoring bothers me, I understand that I need to bring earplugs or headphones. I understand that at times, someone else might be sitting in my favorite recliner. I understand that community acupuncture involves actual community with a wide variety of people, and may at times require some flexibility, patience, or understanding from me.

I understand that acupuncture needles are very small; a different practitioner may remove the needles than the one who inserted them; and so I may need to help my acupuncturist or student intern locate all of the needles at the end of my treatment and before I leave the clinic. I understand that community acupuncture clinics need to treat a high volume of patients in order to keep their prices low, and I am willing to participate in my own treatment process.

I understand that while this form describes major risks of treatment, other side effects and complications may occur. I do not expect the acupuncturist and/or student interns and clinical supervisors to be able to anticipate or explain all possible risks and complications of treatment. I understand that results are not guaranteed.

I understand that acupuncture is a process, and that results will be best when I receive acupuncture regularly and as frequently as my acupuncturist and/or student interns and clinical supervisors recommends. I will ask my acupuncturist and/or student interns and clinical supervisors if I have questions about my treatment or about the risks and benefits of acupuncture. I will notify acupuncturist and/or student interns and clinical supervisors if I am or become pregnant.

I understand that my records will be kept confidential and will not be released without my written consent. Clinical and administrative staff may review my records as needed.

I have read this information (or had it read to me), and I have had an opportunity to ask questions. By signing below I voluntarily give consent to receive acupuncture as treatment for my present condition and for any future conditions.

Working Class Acupuncture / POCA Tech
Procedures, Alternatives, Risks, and Questions (PARQ) Form

The state of Oregon requires the practitioners of Working Class Acupuncture (WCA) and/or the POCA Tech Student clinic (student interns and clinical supervisors) to utilize a Procedures, Alternatives, Risks and Questions (PARQ) Conference with all patients.

In this PARQ conference the acupuncturist will explain the following:
(a) in general terms the procedure or treatment to be undertaken;
(b) that there may be alternative procedures or methods of treatment; and (c) that there are risks, if any, to the procedure or treatment.

For our purposes, this means:

P -- The only treatment this clinic provides is acupuncture. (Moxibustion and Chinese patent herbal medicine may infrequently be provided as adjuncts; most patients will only receive acupuncture here.)

A -- There are many alternative procedures and methods of treatment to acupuncture, depending on a person’s chief complaint. In biomedicine, there are medications, surgery, and physical therapy (to name only a few); for alternative medicine, there are chiropractic adjustments, massage therapy, and homeopathy (to name only a few). Since this clinic only provides acupuncture, if you are interested in alternative procedures, we encourage you to consult your primary care provider who can make recommendations based on your individual concerns.

R -- The risks of acupuncture, moxa, and Chinese herbal medicine are detailed on our informed consent form. Please ask your acupuncturist and/or student intern and clinical supervisor if you have any questions about the risks listed on this form.

Q -- Please let us know if you have any questions about acupuncture, alternatives to acupuncture, or risks of acupuncture, or any other aspect of the WCA and/or POCA Tech Student Clinic. It’s important to us that you feel fully informed and that all our operations are transparent.

I have read and understood the above:

WCA/POCA TECH Student Clinic PATIENT RESPONSIBILITIES

At WCA and the POCA Tech Student Clinic, our goal is to make acupuncture available to people who can benefit from it, even if they don't have a lot of money. That's why we charge as little as we possibly can, and we keep our business running because we treat a lot of patients. **Community acupuncture only works because our patients treat the clinic like a shared resource that they really care about.** You're not a customer here, you're a participant. When you get acupuncture here, you are helping other people get acupuncture. Your presence in the treatment room supports other people’s healing.

Our low fee means that our operating margins are razor-thin. We're not complaining, because we've got the best jobs in the world—also, the best patients. We know that things come up, but with how little we charge, **we need you to be responsible for keeping your appointments.** If you don't show up or if you cancel on short notice, it impacts our operations and may prevent another patient from getting the acupuncture they need.

**WCA and the POCA Tech Student Clinic run on cooperation.** We need jobs and you need acupuncture. If we cooperate, we believe that we can all get what we need even though none of us have a lot of money.

**As a patient, your responsibility is to give at least 24 hours notice to cancel an appointment. You must also give the 24 hours notice to change it to another day.**

If you don't show up to your appointment or if you cancel with less than 24 hours' notice, you will **need to pay a fee of $15.** The last thing we want is for you to pay $15 to not get acupuncture. We do this whole thing because we want you to get acupuncture! So please come in for your appointments and give appropriate notice when you need to cancel.

**To cancel on short notice, you must call. Please do NOT email us about cancellations.**

There are different levels of cooperation. At the meta-level, there is **POCA, the People's Organization of Community Acupuncture,** a co-op that we helped found and that we belong to. **If you want to help the community acupuncture movement, you can join POCA as a member too (www.pocacoop.com). We'd love that.** However, you don't have to be a member of POCA to get acupuncture here.

Some people who staff the front desk are POCA co-op member volunteers. They are giving their time so that WCA and the POCA Tech Student Clinic can continue without having to raise our fees above the sliding scales - $20-$40 at WCA and $10 at POCA Tech. **It is your responsibility to treat our POCA volunteers with patience and respect.** We need you to be nice and stay calm, even if a volunteer makes a mistake or you need to wait longer than you'd like.

**By signing this form I understand I am a cooperative participant in my treatment at WCA and/or the POCA Tech Student Clinic. This means giving 24 hours' notice if I can't attend an appointment I've made, paying the fee if I don't give enough notice, treating personnel with respect, and understanding that WCA and/or the POCA Tech Student Clinic is not a conventional business but rather a cooperative endeavor.**
